

SWA Water Australia

Water & Waste Water Engineers

SWA Industrial Experience

Power Industry

SWA Water Australia has supplied its own proprietary equipment to many power industry sites including power stations and sub-stations.

Power Stations

SWA has supplied equipment to coal fired & gas fired power stations, hydro & geothermal power stations.

SWA has oil separators installed in power stations in Australia, India, New Zealand, Nigeria, Oman, Philippines, Saudi Arabia, Singapore, Thailand & United Arab Emirates.

Transformers

SWA has packaged Oil Separators for Sub-stations and Transformer compounds, incorporating non-emulsifying delivery pumps, oil separators, integral waste oil tanks, control panels & alarms.

SWA has its oil separators installed in sub-stations & transformer compounds in Australia, Malaysia, New Zealand & Singapore.
